

JAP'S LEFT FLANK

Driven back with enormous losses in killed and wounded

CRUISER BAYAN SUNK

The battle at Lone Tree Hill is a Russian Victory Purchased at Tremendous Cost.

THE RUSSIAN ADVANCE.

London, October 19.—St. Petersburg has been cheered by the report that Gen. Kuropatkin has resumed the offensive and by the news of the defeat of the Japanese command of Gen. Oyama and the capture of Lone Tree hill which is represented to be the key to the position to the southwest front of the contending armies. If the report of the advance is authentic and the Russians have crossed to the south side of the Shakhe river, a later rise in the river may have produced conditions threatening Kuropatkin, for it is believed the advance force will be cut off from the reserves and the base of supplies and retreat rendered problematical. It is however questionable if the advance movement had proceeded to the point indicated. There seems no immediate prospect of a cessation of the fighting that has been in progress for the last ten days although there are signs that on both sides the supply ammunition is falling short and that the limit of endurance of the troops must nearly have been reached.

JAPANESE LEFT FLANK DRIVEN BACK.

Mukden, October 19.—It is reported that the Russian army is advancing. News has been just received that the Japanese left flank has been driven back with heavy losses and its retreat cut off. A Russian regiment is now being hurried to the scene in the hope of completing the rout.

CHINESE AIDING THE JAPS.

St. Petersburg, October 19.—A special despatch from Mukden says the Chinese villagers are actively aiding the Japanese. Gen. Sakharov, it is stated, was fired upon from a hut and five of his escort were wounded.

THE BAYAN SUNK.

London, October 19.—A despatch from Shanghai says it is reported there that the shells from the Japanese sunk the Russian cruiser Bayan in Port Arthur harbor.

THE BATTLEFIELD OF LONE TREE HILL.

Fidyatun, six miles east of Shakhe, October 18.—Fighting still continues along almost the whole front. There was a terrific cannonading last night. Every one is terribly exhausted but full of fight. The battlefield of Lone Tree hill presents an awful spectacle. Russian and Japanese dead are mingled in heaps in inextricable confusion.

The ground is strewn with broken rifles that have been smashed in hand to hand fighting. Everything seems to have been used as weapons. The Russians charged valiantly the slopes in order to save the wounded but the Japanese kept up a strong fire and rendered the work of relief difficult and dangerous. The fighting to-day slackened considerably owing to rain and the impassable condition of the roads.

LAND OPERATIONS.

Mukden Oct. 18.—The opposing forces spent the night within rifle range of each other and kept up a continuous exchange of rifle fire. The guns banged away all night, throwing thousands of shells into the Japs. At dawn the Russians again attacked and were again repulsed with heavy losses. This morning the Japs succeeded in advancing, slowly pressing the Russians back. The fighting is still in progress and the Japanese have captured the railroad station. The Russians made a most determined stand at Lamutie, a village just east of the railway and fourteen miles south of Mukden. Lamutie completes the line aimed for by the Japanese. Last night the Japanese took a village to the left of Manutie and this morning they took one to the right. The fighting along this line for the last 48 hours was the heaviest of the entire battle. The Russians had a division and a half and they were frequently exchanging the troops for fresher men. They had over fifty guns. The Japanese had about the same force including the heavy guns captured at the battle of Lanchow Hill (Port Arthur). The losses during the six days fighting have been very heavy in front of a portion of the left army, 1500 dead were found in the first four days, indicating that the casualties have been not less than 7500. The estimates of Russian losses in the six days fighting runs from 10,000 to 25,000. The Japanese losses have not been estimated but it is believed that they will be much less than the Russians. It is believed that the Russians propose to offer resistance along the Muu river outside of Mukden. The Japanese probably will push forward with a view to force an entrance to Mukden as soon as possible. During the first four days fighting the left army captured over two hundred prisoners.

WINDOW DRESSING

An opportunity for the grocery clerks to show what they can do is being given by F. T. Fisher, agent for Sunlight soap. He is offering \$17.50 in cash prizes for the best dressed grocery windows, the windows in the competition to contain nothing but soap manufactured by Lever Bros., Limited.

The cash is to go to the clerks who dress the windows and not to the store and it is expected that some interesting displays will be seen. Edmonton is now a distributing point for Sunlight products.

Can't Sleep?

Here's a prescription that never fails to bring sound, refreshing sleep: Every morning, before breakfast, take a foaming glass of ABBEYS SALT. Take it faithfully—give it a fair chance—and it won't be long before you "sleep like a babe" and feel "a hundred per cent. better" in every way.

Abbey's, being a granular salt, contains no alcohol; liquid preparations may.

Druggists, everywhere, sell it. 25c. and 60c. a bottle.

Abbey's Effervescent Salt

A Merciful Man is Merciful to his Beast

Protect your horses from the cold, and ensure their comfort and lengthen their lives.

Our Stock of Horse Blankets

is very large, well selected, and priced lower than ever before. We can give you the best selection, and the best goods. A glance at our assortment of Robes does much to dispel the dread of a cold drive in the winter time. We have all the best kinds, including the celebrated

Saskatchewan Buffalo and the Galloway Hide Robes.

See these before you buy. We invite you to examine our stock of Gloves and Mitts. This is a new line with us, and the prices will interest you. We are making a leader of a Persian Lamb Gauntlet at \$2 a pair.

PROVINCIAL AUTONOMY

As They Have It In The Provinces

If the Territories secure provincial autonomy, they must accept it on such terms of subsidy as the provinces have. The basis of provincial subsidy is population at the time of entering confederation. At the census of 1901, the population of the Territories was 158,940, or practically 160,000. Allowing for the rapid increase the Territories now have a population of 250,000. The subsidy received by the North-West Territories for the current year is \$1,111,979, or roughly, \$1,112,000. A quarter of a million people receive over a million dollars in subsidy, or over \$4 per head.

Ontario had a population at the census of 1901 of 2,183,967, and Ontario receives in subsidy for the current year, \$1,339,287. With more than eight times as many people, Ontario receives only \$228,000, or less than one-fifth more subsidy than the Territories.

Quebec, with a population of 1,688,898, six times that of the Territories, receives \$1,086,713 or \$325,000 less than the subsidy received this year by the Territories.

Nova Scotia, with a population of 659,974, nearly twice that of the Territories, receives \$432,905, or little more than one-third as much subsidy.

New Brunswick, with a population of 381,120, considerably larger than that of the Territories, receives \$491,260, or considerably less than half as much subsidy.

Prince Edward Island, with a population of 103,259, less than half that of the Territories, receives a subsidy of \$211,931, or less than one-fifth that of the Territories.

British Columbia, with a population of 178,657, two-thirds that of the Territories, receives a subsidy of \$307,076, less than one-third that of the Territories.

The province of Manitoba, with a population of 255,211 in the year 1903 about the same as that of the Territories now, receives a subsidy of \$533,327, or less than half that received by the Territories.

The province of Manitoba, although organized in 1871, does not control the land, timber or minerals within its borders.

In 1891 the subsidy received by the province of Manitoba was \$437,591; in 1903 the subsidy is \$533,327, an increase of less than \$100,000 in 12 years.

In 1893 the subsidy received by the Territories was \$222,648; in 1904-5 the subsidy is \$1,111,979, an increase of nearly fivefold.

The provincial condition is an established condition; the Territorial condition is a condition of change. In a country changing so rapidly, and bound to change so greatly, as the Territories, the need is not for a condition or permanence, but for a condition of change, by which the needs occasioned by the rapid growth can be met, as they are being met to-day, but as they could not be under the conditions by which any

of the provinces have entered confederation.

Provincial autonomy that would improve our financial position would be a gain; but provincial autonomy that would tie us down at this stage in our career to provincial terms as to subsidy would be a loss. What we need is not more responsibility but more money. If to-day our Territorial revenues are not equal to our territorial responsibilities, how much less would fixed provincial revenues meet ever-growing provincial responsibilities.

Perfect Protection against Northwest Winters

Ordinary underwear is made for ordinary climates. Most makers can't appreciate the intense cold of the Northwest. Their garments are all right for freezing weather, but entirely too light for 50 to 50 below zero.

Stanfield's Unshrinkable Underwear

is knitted in special weights, especially for the severe winters of this section. It's planned by men who know the climate and the people know exactly what they want—know how to knit it thick enough for warmth, yet not too heavy for comfort.

Best of all—Stanfield's is guaranteed absolutely unshrinkable. All sizes to perfectly fit every figure. Lending dealers throughout the West and Stanfield's.

STANFIELD & CO., WHOLESALE
Distributors for the West

WHAT COSTS MOST

WHOLE lot of people fancy the cigar business is a snap!

They figure out that all you need is some cases of tobacco, a few cigar makers, and the name of some stage favorite or prominent man.

The quality of the filler does not interest them at all—the binder is beneath their notice—but the wrapper and the name is all important.

They can sell this kind of cigar at \$55.00 a thousand, give a gold watch into the bargain, and then make a good size profit.

The principal cost of Pharoahs is in tobacco—I buy the best filler in the world—a Cuban leaf—one I select myself from the best of the Manicagua district, in the Province of Santa Clara—a Connecticut broad leaf as binder, the most expensive in the world—and I import a clear leaf Sumatra from Holland as wrapper.

I secure by this means a superb cigar, a fragrant, even smoker—very palatable—very superior to the ordinary run of cigars.

M. LECLERC - PROP.

BLAIR HAS RESIGNED

His Position as Chairman of the Railway Commission. He will accept a more lucrative position, it is reported, with the C. P. R. or the G. T. P.

Bulletin Special Dispatch.
Ottawa, October 19.—Hon. A. G. Blair announced at a meeting of the railway commission yesterday that he had resigned his position as chairman and member of the board, and that it was the last meeting of the board that he would sit at. He said that he was going to a position which would be more profitable to him. He had no complaints to make against anyone, nor had he fault to find, and said it was with regret

that he severed himself from politics. It is reported that he is to go on the Grand Trunk Pacific as chief counsel. Another report is that he will become chief counsel of the Canadian Pacific Railway. It may be one of these positions, but he refused to say. His colleagues on the board only knew a few minutes before that he intended to resign. The latest report is that Blair is to be chief solicitor for the C. P. R. at \$20,000 a year.

COUNCIL MEETING

BANQUET WILL BE HELD

On the evening of November Seventh on the occasion of the City Charter taking effect

The regular meeting of the Edmonton city council was held in the usual place last evening. Present, Mayor Short, and councillors Fraser, May, Cushing and Picard. The minutes of the last regular meeting were read and adopted.

City debt matters were discussed at considerable length, but nothing definite was arrived at.

C. W. Sutter, Dominion Immigration Agent addressed the council regarding aid to his pamphlet. The request was referred to the finance committee with power to act.

A communication from Geo. Gilmer, asking the council to order the removal of a frame lean to at the rear of the Bon Ton fruit store, claiming it to be contrary to the provisions of the fire by-law, was read. W. S. Robertson was heard in connection with this. It was referred to the engineer.

The matter of the Curry street sidewalk through the mission property was referred to a committee consisting of councillors May and Cushing.

N. D. Beck, city solicitor, laid the city charter before the council. It was moved that a banquet be held on the evening of November 7, the day the city charter takes effect, and that a committee consisting of councillors Cushing, May and Picard be appointed to make all arrangements. It is suggested that the banquet be held in the rink, and will be made as much of a public function as possible.

A petition was read objecting to the early closing by-law, for grocers claiming that an insufficient number of grocers had signed the original petition for early closing, and consequently this section of the by-law should be annulled. The petition was referred to the solicitor.

The secretary of the fire brigade informed the council of the election of W. J. Johnston, as chief of the fire brigade.

Progress estimates for work on the city office buildings were presented by engineer McLean and approved of.

The straightening of Jasper avenue east was discussed. The removal of buildings on the new street allowance will be dealt with by the engineer and the special committee of the council appointed for the purpose.

The engineer reported having requested Mr. Chapman to present his report on the west end sewerage system as soon as possible.

The placing of several new fire lights at different places in the city was discussed, and allowed to stand over for the present.

The time of granting discounts on tax payments was extended to November 30.

The finance committee's report was adopted, and the meeting adjourned.

TELEGRAPHIC.

HIGHEST AWARD

BRITISH COLUMBIA APPLES

Make a splendid showing at Horticultural Exhibition in London England

Bulletin Special Dispatch.
Victoria, October 18.—Premier Mc Bride to-day received the following wire from Agent Turner, London: "October 18: British Columbia fruit took the highest British award, gold medal, of the Royal Horticultural Society show. The shipment was principally of apples, which was sent six weeks ago."

BAPTISTS IN SESSION

MAY OPPOSE CHURCH UNION

If any relation is to exist between Church and State. Bible teaching in schools

Bulletin Special Dispatch.
Toronto, October 19.—Speaking at the annual meeting of the Baptist Association of Ontario and Quebec last night, Rev. W. J. MacKay, editor of the Canadian Baptist, said that the Baptist Church was opposed to church union so long as other churches favored a relation between church and state, and the teaching of the Bible in public schools. At this morning's session Rev. J. B. Kennedy declared that Canada was likely to become Roman Catholic unless the Baptists bestir themselves.

RAILWAY ACCIDENTS

SHOW A GREAT INCREASE

In the United States for the past year.
Huge damage to cars, engines and roadway

Bulletin Special Dispatch.
Washington, October 18.—A report issued to-day by the inter-state commerce commission shows that the total number of casualties to persons on the railroads in the United States during the fiscal year ending June 30, 1904, was 55,130, comprising 3,787 killed, and 51,343 injured. This shows a large increase. The total number of collisions and derailments was 11,201, involving \$9,383,077 of damage to cars, engines and roadway. This is an increase of 648 collisions and derailments.

ARRESTED FOR CRIMINAL LIBEL

Bulletin Special Dispatch.
Dawson, October 18.—Ex-alderman Gillis president of the Yukon Hardware Co., publishes a letter in the Yukon World to-day that the name of his company was added to Thompson's telegram without the consent or knowledge of any officer of the company, and that no officer had any knowledge of any such telegram being sent. Thompson was arrested this morning for criminal libel. Yukon Sun, at the instance of Commissioner Congdon.

REVOLVER WAS LOADED

Bulletin Special Dispatch.
Barrie, October 19.—While handling a revolver yesterday Miss May suddenly discharged it, the ball from which struck a Mrs. Villiers, aged 55, and passed completely through her body. Mrs. Villiers is suffering great pain, but it is hoped that the result will not prove fatal.

THREE MEN KILLED

MEXICAN DESPERADOES

Commit murder and then engage in a pitched battle with police officers

Mexico, October 18.—Three killed and 15 more or less seriously injured was the result of a tragedy and a subsequent encounter between soldiers and brigands in this federal district yesterday. Clazed by drink the three bandits, Floris, Saldox and Herrera went to the residence of Hickno Godinez at Santa Julia a northern suburb of this city and called Godinez out, when he issued from the house accompanied by a servant the bandits opened fire upon them. The servant was instantly killed and Godinez badly wounded. When news of the tragedy reached the city, 12 police were dispatched to a place whither it was learned the desperadoes had fled. A pitched battle ensued in which nearly every policeman was wounded.

SHOOTING ACCIDENT

Bulletin Special Dispatch.
Toronto, October 19.—Word was received from here that Harold Wallis, manager of Crooks and Co.'s drug store at Port Arthur, was shot and instantly killed on Sunday, by the accidental discharge of a gun.

NO IMPROVEMENT

Bulletin Special Dispatch.
London, October 18.—The condition of Bishop Baldwin of Huron remains unchanged.

CONSERVATIVE NOMINATIONS

Bulletin Special Dispatch.
Montreal, October 18.—The following nominations were made yesterday:—
Gloucester, N.B., N. M. Landry, Conservative.
Chateauguay, Que., Geo. Brisson, Conservative.
Yamaska, Que., E. Pellissier, Conservative.
West-Elgin, W. Jackson, Conservative.

THE WEATHER

Winnipeg, October 19.—The weather yesterday throughout the Territories and Manitoba was comparatively cool and clear. The forecast is:—To-day, and Thursday, westerly winds fine weather, warm days with frosts at night.

PEACE RIVER COUNTRY

ITS NATURAL ADVANTAGES

Settlers going in from the Edmonton district. Good crops and better prospects

Geo. W. Eton, is in Edmonton from Fort Vermillion in the famous Peace river valley. He has spent one year at that northern post, and is enthusiastic regarding its immense natural resources and possibilities. Fort Vermillion is 300 miles down the Peace river from Peace River Landing. It is the centre of a magnificent stretch of fertile country which is destined to be a thickly populated country in the not far distant future. Mr. Eton has travelled over a great portion of that fertile valley and cannot say too much for it. He has taken up a section of land near Fort Vermillion, and intends returning next spring with stock and machinery.

There are two distinct Peace river valleys—the upper and the lower. Going down the Peace river from the Landing Wolverine Point is passed. This is the commencement of the lower Peace river valley. It lies within a small range of mountains and is in the shape of a huge horseshoe, almost 250 miles square. The climate of this district is splendid; warm chinook winds are experienced and spring opens up as early, and summer lingers as late as in the Edmonton district. It is timbered and well watered—an ideal mixed farming and dairying country, in which wheat, oats, barley, potatoes and all kinds of garden truck have not been known to fail in eighteen years. Potatoes, carrots, onions and parsnips grow luxuriantly. The rainfall is sufficient and never excessive, and the country is blessed with a great deal of sunshine. The rivers team with fish of the choicest varieties.

In the heart of this splendid country is Fort Vermillion. The Hudson's Bay Company, and Broden and Cornwall have trading posts here, and a large business is carried on. Trade has been good in the north, the past year, and the Indians are in first class condition. Besides the trading post the Hudson's Bay Company have a roller process flour mill with a capacity of forty barrels a day. They have also a good sawmill. The best grade of flour sells at \$6.00 per hundredweight, and \$5.00 and \$4.00 for the poorer grades. The Roman Catholic mission also have a flour mill and a sawmill. Besides the Roman Catholic mission in connection with which there is a school, is an English Church mission. A school is also connected with it. There is a white population at Fort Vermillion of from forty to fifty. Many farmers from the Edmonton district and elsewhere have gone into that country during the past year, and selected lands.

The Hudson's Bay Company are building a first class steamer at Fort Vermillion for Peace river work. She will be 120 feet long, built entirely of native timber, and with all the most modern equipment. The boilers for the steamer were taken from Edmonton some time ago.

The Hudson's Bay Company have opened a splendid road from Fort Vermillion to the end of the shutes on the Peace river, a distance of sixty miles. These rapids are the only obstruction to the continuous navigation of the Peace river.

Mr. Eton would advise against farmers going into the Peace river country at once. He states that there is ample work for a considerable number of men. They should take in their own supplies except flour which can be purchased more economically at Ft. Vermillion than what it can be brought in for. Horses, cattle and hogs do splendidly on the natural grasses.

No half has ever been known to fail in this district, and during the entire winter spent in the north, Mr. Eton never experienced anything like the cold to which he was accustomed in McPherson county, South Dakota, where he lived for seven years. While at Fort Vermillion Mr. Eton worked with Sheridan Lawrence, a prosperous farmer and rancher. He has, besides horses, one hundred head of cattle and one hundred hogs. He has steam threshing and chipping outfits. This year his crop exceeded \$3,000 almost one-third of the crop grown in the district. This year more new land has been broken up for crop, and the yield next year will be larger from the increased acreage.

Mr. Eton states that the farmers in the north are greatly pleased with the steps the present government is taking to open up the Peace river country. The construction of the colonization road will do a great deal to affect this desired end. Mr. Eton, who remains in Edmonton during the winter, expects to go north again next March.

Musical Education

Excellent training in Music can be obtained in Alberta College, Edmonton. The College has a full staff of specially qualified teachers in the different departments of music associated with Mr. Percy S. Hook, musical director and instructor in piano and theory, are—Miss Beatrice Crawford teacher in piano, Miss Ethel Webster teacher of voice culture and singing and Miss Edith Webster teacher of violin. Also there is a department of elocution and physical culture under the direction of Miss E. A. Bellamy, diplomist Moulton College, Toronto. There will be lectures, recitals, social meetings, etc., from which students will derive great benefit.

The business department is in full operation, day and night classes, diplomas awarded in stenography and book-keeping. The new building is on First Street. Business and music open now. Arts and Academic October 1st. Intending students should register as soon as possible. For fees and particulars apply to the Musical Director, PERCY S. HOOK or PRINCIPAL J. H. RIDDELL, B.A., B.D., EDMONTON.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3 or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantiated.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

The Fall Suits.

What have you in mind? At least one Sack Suit—a Frock Coat or Cutaway—perhaps a Dress Suit or Tuxedo?

HIGH SCHOOL LITERARY

The students of the Edmonton high school are in the throes of an exciting election contest. The time was at hand for the organization of the high school literary society. A suggestion that the election of officers be proceeded with in regular orthodox fashion met with a great deal of enthusiasm, and yesterday afternoon was duly declared nomination day. The students divided themselves into two classes, the "reds" and the "blues." Ronald McDougall is the leader of the blues, and W. R. Grant of the reds. For honorary president, R. Secord was chosen by acclamation, the blues failing to put a candidate in the field. The school, with one consent, voted Mr. Johnston to the position of critic. Geo. E. Ellis was unanimously chosen judge. Miss Anna Oliver was chosen by acclamation to be editor of the literary society paper, the High School News. The balance of the candidates in the field are—

BLUES.

Pres., Ronald McDougall.
1st Vice-pres., Rose Wootter.
2nd Vice-pres., Clyde Sutherland.
Rec.-sec., Ernest Shields.
Treas., Harry Bragg.
Cor. Sec., Lazelle Blaney.

IRON ORE IN EDMONTON DISTRICT

About one hundred miles east of the city of Edmonton lies a valuable deposit of iron ore, of which little has been known of its value until the present time. Last week the owners, Mrs. E. McAdam and A. Johnson took with them over the property. Mr. Blakemore, a well-known mining expert of British Columbia, and after a thorough inspection returned to the city on Saturday last well pleased with their visit to the mines. Up to the present time there has been considerable work done, and the ore body has proved to be very large, with high grade ore, averaging in assays from the surface of from 41 to 50 per cent metallic iron. It is believed that there is a larger and better grade of ore below the surface, and future work will be done by drills and shafts to locate the ore body. The owners intend to form a company, and when sufficient capital is subscribed, will prospect the ground thoroughly. The new company when formed will also acquire valuable marl and coal lands, which are known to lie close to the iron deposit. The marl is valuable for making Portland cement and in the manufacture of silica brick and building blocks, which are now used almost exclusively in many parts of the United States. With the development of the mineral deposits of Northern Alberta, another source of productiveness and prosperity will surely be established. The following is the preliminary report of Mr. Blakemore on the property:

Dear Sirs.—This is to certify that I have inspected your iron property situated about 20 miles north-east of Victoria, in Twp. 58 and 59, Rge. 14 and 15, W of the 4th M.

The property consists of six claims—Wee Aman, Irondale, Limonite, Farm Revelstoke, Rita and Eva, all of which are leased to you by the Government and were surveyed by Messrs. Saunders and Driscoll, O.L.S., in June, 1904.

The property contains a genuine deposit of oxide of iron at least two miles in length north and south, and of unascertained width, but not less than several hundred feet. On the Wee Aman, where much work has been done it is exposed for a width of 500 to 600 feet. The thickness varies from 6 to 14 feet and while at the present stage of development it would not be possible to make a close estimate of quantity, there is sufficient exposure to enable me to say that there is an enormous deposit running into hundreds of thousands and probably millions of tons. The occurrence of the iron is favorable for development and working at a moderate expenditure, say \$10,000 made under expert advice would enable you to thoroughly prove the property by boring and sinking. The iron lies on the surface beneath a thin cover of soil and could be removed entirely by dredging in a similar manner to operations carried on successfully and profitably for many years by the Messrs. Drummond & Radnor barges of Quebec which they use in their charcoal iron smelting works.

From the assays already made I should say that you have in this property a high grade limonite which when the country is opened up and railway transportation afforded will be extremely valuable and can be used for said manufacture and for smelting in combination with other ores.

I took my own samples, and after assaying them will follow this preliminary report with a more detailed one, including the results of the assays. Meanwhile I can say that the property is well worth the expenditure of the sum named to make a thorough test, as for the amount of work done the showing is excellent, and I think from the character of the ground, and the mode of the occurrence of the ore body already disclosed you may find a more valuable deposit below the gravel on which it is superimposed.

Yours truly,
WM. BLAKEMORE, M.E., C.E.

LOCAL

—Train on time.

—W. J. Johnston has been appointed chief of the fire brigade.

—Several new arc lights will be placed on the streets of the city.

—The time for granting discounts on the payment of municipal taxes has been extended to November 30.

—The Stuart Comedy Company will appear in Robertson's Hall on Friday and Saturday evenings of this week. They will give a matinee Saturday afternoon.

—A banquet will be held in the skating rink on the evening of November 7, on the occasion of the Edmonton city charter taking effect. Public men from different parts of the West have announced their intentions to be present.

—W. Toole, Canadian Pacific Railway land agent, at Calgary, arrived in the city last evening. He was accompanied by F. G. Griffin, of Winnipeg, and J. Niblock, and C. S. Lott, of Calgary. The party drove to Fort Saskatchewan this morning.

—A very successful public meeting was held in the Poplar Lake school-house yesterday evening, in the interests of F. Oliver, M.P. The attendance was fair, and the chair was taken by W. Clarke. Speeches were delivered by C. W. Cross, Jas. McGeorge and J. Howey.

—Ponoka Herald: The Canadian Bank of Commerce has purchased a new site upon which they will erect next season a substantial bank building. The site selected is the lot between the Royal Hotel and L. Spackman's hardware, formerly the property of the hotel. The consideration we are told was \$1,500.

—Herald: It is currently reported that it is the intention of the C. P. R. to erect a roundhouse at Ponoka where they will keep the engines with which the spur lines from Waskiwin and Lacombe will be operated. This is to be done on account of the supply of water at this place which the company cannot secure at either of the above towns.

PERSONAL

N. W. Meadows, arrived in the city last evening from Lacombe.

B. C. d'Easum, Fort Saskatchewan, was in the city yesterday.

J. P. Minchinick, of the Frost & Wood Company, arrived in the city last evening.

LIBERALS WILL SWEEP NOVA SCOTIA

Dr. Arthur Kendall, the Liberal member for Cape Breton, Nova Scotia, who defeated Sir Charles Tupper for the Dominion House of Commons, telegraphed to a friend in Edmonton yesterday that the Conservatives did not expect to carry more than two seats in the whole province of Nova Scotia.

Dr. Kendall added a few words regarding the representation of Edmonton in the Dominion parliament, and urged his Cape Breton friends in this district to do their utmost for Frank Oliver, whom Mr. Kendall describes as the most fearless champion of Western Canada in the Dominion parliament.
